

Find and Explore Your Own Voice

... in a safe, supportive space

Pip's **Find and Explore your Own Voice** course - now in its 10th year - is suitable for those new to harmony singing as well as more experienced singers wishing to work on their confidence and what they can do with their voice. It includes **10 hours tuition in a small group** arranged over 4 workshops and a **30 minute individual lesson** for each participant.

In the group sessions we look at how the voice works and explore a progressive series of vocal games and exercises to help us become aware of and improve our vocal technique (including posture, breathing and resonance). In the lovely acoustic of Carleen Village Hall we create a supportive space where it is safe to experiment, make mistakes, learn and shine.

We use simple harmony songs in different styles to help put what we've been learning into practice, to find and embrace 'your' sound, to develop your ability to sing out, to identify and increase your range, to sing in tune and - above all - to build confidence. There is a (completely optional ...) opportunity to share a song with the rest of the group in the final session.
