This extended version of Pip's popular 'Find Your Own Voice' course is suitable for those new to harmony singing as well as more experienced singers who want to extend what they can do with their voice.

In a small, supportive group we will learn how the voice works and explore a progressive series of vocal games, exercises and techniques.

We will also learn simple harmony songs in different styles to help you find your sound, develop your ability to sing out, to sing in tune and above all to build your confidence.

'Find and Explore Your Own Voice' will be taught by **Pip Wright**, a local choir leader and music teacher with a passion for singing to enhance wellbeing and connection.

Pip is a Natural Voice teacher who enjoys helping people to find their voice through harmony singing.

To make it work for all participants, this course requires advance booking and a commitment to attending all group sessions.

The number of participants will be limited to a maximum of 16 so that all singers can be heard and Pip can help with individual issues or questions as they emerge.

The course also includes a 30 minute 1:1 lesson with for each participant held at a mutually convenient time on 8th or 22nd February.

You will come away from 'Find and Explore your own Voice' with tools and techniques you can use to help you continue to progress after the course.
